1 December 1986

Dear Sir,

I should like to congratulate you with the consultative status which was granted to your organization by the Industrial Development Board of the new UNIDO. I trust that this special status will lead to an increased level of co-operation activities between our organizations.

As you might know, the policy guidelines of the new UNIDO emphasize the need and the desirability to increase the inputs from industrial organizations and enterprises in UNIDO's programme of activities.

As a first step to increased co-operation between UNIDO and members of your organization, we are attaching a two-page questionnaire designed for this purpose. We would kindly request you to distribute the questionnaire to your member organizations on the national level. The information provided through the questionnaire will give a general idea of the type of co-operation UNIDO would be able to develop with non-governmental organizations and industrial enterprises.

This information on potential co-operation activities and sectors will be stored in a computerized roster, which will be consulted during the formulation and implementation phases of specific UNIDO projects. The roster will also be used in order to be able to respond to direct requests from industrial organizations and enterprises in developing countries. UNIDO will get directly in touch with the contact person in the respective organizations to discuss the co-operation arrangements in detail, whenever an opportunity for co-operation arises.

I would be very grateful if you could forward copies of the questionnaire to your members requesting them to return the questionnaire, duly filled out, directly to UNIDO, to my attention.

Thank you very much for your co-operation in this matter.

Yours sincerely,

M. Janjic
Chief

Section for Co-operation with Non-governmental
Organizations and Industrial Enterprises

The Secretary General
